ILLINOIS GROUNDWATER ASSOCIATION

SPRING MEETING

Illinoisgroundwater.net

Agenda – We are developing a strong program with confirmed talks on chlorides in bedrock aquifers of NE Illinois, the contributions of chloride from agriculture to groundwater, and nitrate and denitrification in the Rock River Basin. An opportunity to visit a saturated riparian buffer research site will end the day. This is also a continuing education unit (CEU) event.

Opportunity–A few more discussion spots are open, so any professionals, students, or professors are welcomed to send presentation abstracts to our Chair, [Joe Krienert](#) or Vice-Chair [Megan Brown](#) **by February 28 to share knowledge!**

Location – Illinois State University will host the meeting at the ISU Alumni Center in Normal, IL. The event will be simulcast through Zoom to provide access to those unable to attend in person. Lunch and refreshments are included.

Reminder – **Registration for the Spring 2023 meeting is now [active here!](#)**

| | Early | Onsite | Online |
|--------------|-------|--------|--------|
| Professional | \$65 | \$70 | \$10 |
| Student | \$20 | \$20 | \$5 |
